- Video Editing: Final Cut Pro, iMovie, Trinity Predator 2.2, DVD Studio Pro

#### Employment History

July 2013 – July 2020                      CompuSystems                      Lisle, IL

##### **Web Developer**

- Develop, test, and maintain high-volume customized websites that manage registration, payment, exhibitor promotion, and lead retrieval for our clients' annual trade shows and events, per clients' specifications and business rules—approximately one site every 2 weeks.
- Update Java, HTML, CSS, form validation and navigation rules, etc., per website mockup.
- Set credentials for & test sites using VeriSign/PayPal or CyberSource payment processors.
- Integrate sites with client or 3<sup>rd</sup> party web services to verify membership, book a hotel, etc.
- Test websites for cross-browser compatibility and mobile-functionality.
- Provide continuing general maintenance for as many as 12 websites at a time.
- Java (Apache Tomcat J2EE), jQuery/JavaScript, Notepad++, Dreamweaver, Unix (Nexus Terminal), SQL, Bootstrap, limited graphics.
- URLs of registration websites I have worked on are available upon request.

June 2005 – July 2013                      CintronicsOnline.com/FLS, Inc.                      Naperville, IL

##### **Web Design & Development, Graphics, Print, Programming** (contractor)

- Applied XHTML standards to [CintronicsOnline.com](http://CintronicsOnline.com) and resolved browser-compatibility issues. Used server-side includes, PHP, and CSS to achieve site-wide design consistency.
- Created Zen-Cart sites WyseStore.com and SurveillanceOnline.com, now inactive.
- Applied search engine optimization (SEO) strategies to attain first page rankings in Google, Yahoo, & MSN for WyseStore.com when model & part numbers are used as search terms.
- Created company [catalogs](#), [flyers](#), and [postcards](#) using Adobe InDesign & Illustrator, and custom versions of our catalogs for resellers using custom master pages and content layers.
- Created customized company newsletter/email template in ConstantContact.
- Wrote macros to automate repair/return data entry into QuickBooks.
- Branded our DVR software for our resellers by adding their logo and info.

March 2012 – January 2013                      Creative Circle (W.W. Grainger)                      Lake Forest, IL

##### **Web Development** (contracted to W.W. Grainger, Inc. via Creative Circle, contract extended twice)

- Built tableless web pages and [stacked-table email modules](#) from Photoshop [compositions](#).
- Web coding: Tableless HTML and CSS; some JavaScript and JSON.
- Hybris CMS, BroadVision Pub Center, Adobe 5.5 applications.

December 2010 – January 2012                      Central Newspaper                      Chicago, IL

##### **Webmaster/Developer**

- Maintenance and development of [Central Newspaper's](#) various websites: [1](#) [2](#) [3](#).
- Restructured website database as part of an eventual migration to the Drupal CMS.

August 2002 – August 2005                      Joliet Junior College                      Joliet, IL
